

LAMINATE MOULDINGS

To Be Used With 8mm Flooring

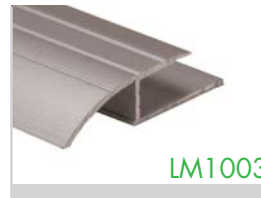

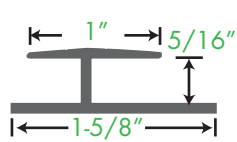

LM1001

One piece Floating Floor End Stop (J-Mould) used when butting floating floors to walls, patio doors or other flooring materials of similar heights such as hardwood or ceramic tile.
Finish: SCA, SGA, STI, SCP

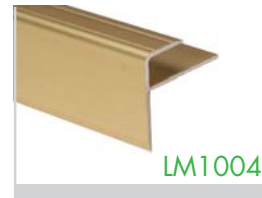

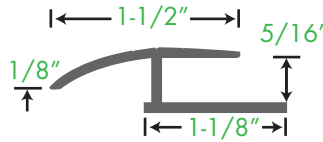

LM1002

One piece Expansion Joint (divider) for Floating Floors. Used when installing large areas of floating floors as an expansion joint. Large overhangs allows expansion of floors and eliminates buckling. Should be used for any installation greater than 12' in any one direction.
Finish: SCA, SGA, STI, SCP

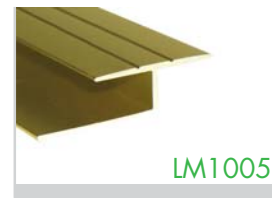

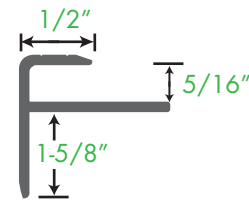

LM1003

One piece Floating Floor Reducer. Used when butting floating floors up to 1/8" tile or resilient sheet goods. The large overhang allows the laminate floor to expand and contract up to 1/2".
Finish: SCA, SGA, STI, SCP

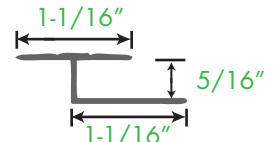

LM1004

One piece Floating Floor Stair Nosing. Used when installing floating floors on stairs. Can also be used with ceramic tiles or other floors of similar thickness.
Finish: SCA, SGA, STI, SCP

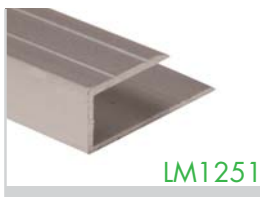

LM1005

One piece Expansion Joint (divider) for Floating Floors. Used when installing large areas of floating floors as an expansion joint. Large overhangs allows expansion of floors and eliminates buckling. Should be used for any installation greater than 12' in any one direction.
Finish: SCA, SGA, STI, SCP

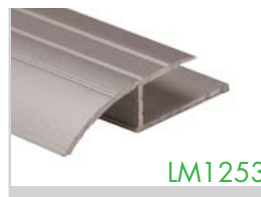

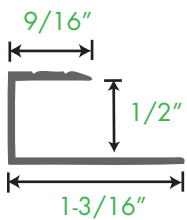

To Be Used With 12.5mm Flooring

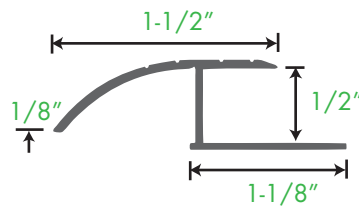

LM1251

One piece Floating Floor End Stop (J-Mould) Used when butting floating floors to walls, patio doors or other flooring materials of similar heights such as hardwood or ceramic tile.
Finish: SCA, SGA, STI, SCP

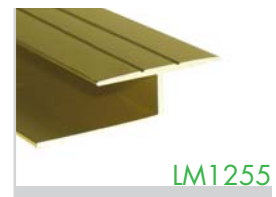

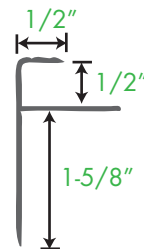

LM1253

One piece Floating Floor Reducer. Used when butting floating floors up to 1/8" tile or resilient sheet goods. The large overhang allows the laminate floor to expand and contract up to 1/2".
Finish: SCA, SGA, STI, SCP.

LM1254

One piece Floating Floor Stair nosing. Used when installing floating floors on stairs. Can also be used with ceramic tiles or other floors of similar thickness. Extended lower leg for better coverage.
Finish: SCA, SGA, STI, SCP

LM1255

One piece Expansion Joint (divider) for Floating Floors. Used when installing large areas of floating floors as an expansion joint. Large overhangs allows expansion of floors and eliminates buckling. Should be used for any installation greater than 12' in any one direction.
Finish: SCA, SGA, STI, SCP
