## CERAMIC CORNERS (CM5110BCLOCR, CM5110SCAOCR & CM5110STIOCR)

*We at LOXCREEN are constantly upgrading our product line and looking for innovative ways to make your task easier. For Loxcreen Good Design is at the core of and fundamental to our product development.*

Attention to detail and finishes are what makes the difference in a renovated bathroom or kitchen. With the right finishes a renovation can leap from “just all right” to “the WOW factor”. Whether you are a professional or are doing your own renovations, the right tools and the right products are essential.

When working with ceramic and stone tiles detailing and finishes are crucial. The corners, edges, transition from one surface to another and below the surfaces are the weakest areas and need protection. Loxcreen’s newest product the Outside Ceramic Corner will ensure a professional well-designed finish that will prevent chipping and cracking. The Loxcreen Outside Ceramic Corner is easy to use. Installing ceramic and stone tiles are a major investment both in time and money. Loxcreen Outside Ceramic Corner guarantees the durability and longevity of your investment.

The Loxcreen Outside Ceramic Corner is designed for use with the Loxcreen Aluminum Round Tile Edge ET2251 and available in three finishes, BRIGHT CLEAR, CLEAR ANODIZED and SATIN TITANIUM

The Loxcreen Outside Ceramic Corner assures  
**A beautifully detailed and finished installation.**

Please feel free to contact us at 1-800-565-6653 for information about the Loxcreen Outside Ceramic Corner or any technical information you may require concerning the installation of our Outside Ceramic Corner.
