

To Be Used With 8mm Flooring

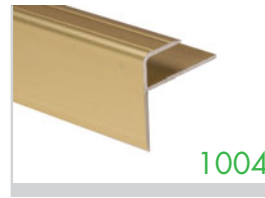

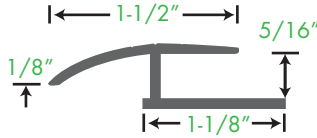

One piece Floating Floor End Stop (J-Mould) used when butting floating floors to walls, patio doors or other flooring materials of similar heights such as hardwood or ceramic tile.
Finish: SCA, SGA, STI, SCP
Length: 8ft
Pieces/Tube: 12pcs

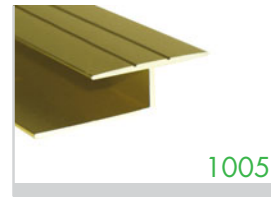

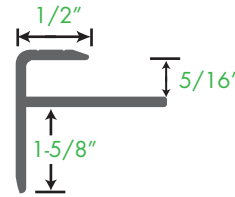

One piece Expansion Joint (divider) for Floating Floors. Used when installing large areas of floating floors as an expansion joint. Large overhangs allows expansion of floors and eliminates buckling. Should be used for any installation greater than 12' in any one direction.
Finish: SCA, SGA, STI, SCP
Length: 8ft
Pieces/Tube: 12pcs

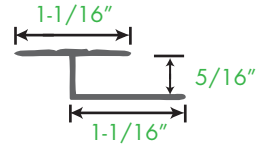

One piece Floating Floor Reducer. Used when butting floating floors up to 1/8" tile or resilient sheet goods. The large overhang allows the laminate floor to expand and contract up to 1/2".
Finish: SCA, SGA, STI, SCP
Length: 8ft
Pieces/Tube: 12pcs

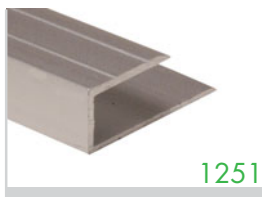

One piece Floating Floor Stair Nosing. Used when installing floating floors on stairs. Can also be used with ceramic tiles or other floors of similar thickness.
Finish: SCA, SGA, STI, SCP
Length: 8ft
Pieces/Tube: 12pcs

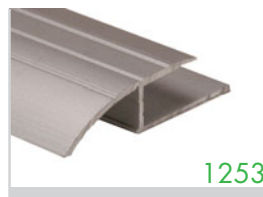

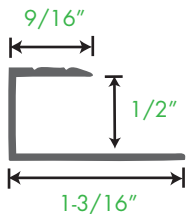

One piece Expansion Joint (divider) for Floating Floors. Used when installing large areas of floating floors as an expansion joint. Large overhangs allows expansion of floors and eliminates buckling. Should be used for any installation greater than 12' in any one direction.
Finish: SCA, SGA, STI, SCP
Length: 8ft
Pieces/Tube: 12pcs

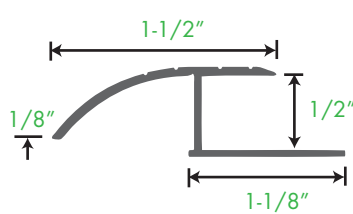

To Be Used With 12.5mm Flooring

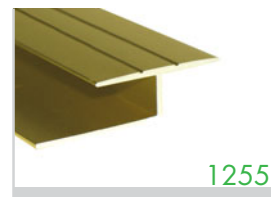

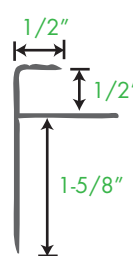

One piece Floating Floor End Stop (J-Mould) Used when butting floating floors to walls, patio doors or other flooring materials of similar heights such as hardwood or ceramic tile.
Finish: SCA, SGA, STI, SCP
