

DURA*TRIM

New Product Update

July 2011

TTA1021MIL08
3/8IN (10MM) CERAMIC
EDGE PROTECTION - RAMP

TTA1021MIL08

TTA1021MIL08:

1. Fill back side of reducer completely with modified thinset mortar using flat side of trowel
2. Spread modified thinset on substrate with a notched trowel for area to reducer
3. Press reducer into mortar
4. Punched flange must be troweled full of mortar when installing tile
5. Leave a small grout line between tile and reducer
6. Grout tile at reducer - take care not to leave grout on face of reducer (grout is a currosive product)
